

ACADEMIC MATTERS

Due to the early closure of the 2nd term, it was impossible for the school to complete the usual term-ending process of distribution of reports. The marks and reports were finalised in the first week of this term and reports were distributed on Friday, 30 July.

It is important as a parent that you spend time analysing the report results with your son. Use this time to do goal-setting for the last half of this year and

put interventions in place to make the achieving of the goals a possibility.

We are very impressed with a number of our boys who have shown improvement in their performance in the 2nd term. A special congratulations goes to the boys, who with their academic performance, find their name on the Top 10 Honours Boards and have achieved Cum Laude or Summa Cum Laude Awards. A special Awards Assembly will

be held on Friday, 6 August in our school hall.

There is huge concern for the boys who have not met the minimum requirements for progression to the next grade or boys whose marks are dangerously low. Our teachers will soon be calling meetings with parents of the boys who require urgent intervention to ensure that there is a change in work ethic and performance in the final two terms.

KUDU BULLETIN

Edition 1 > 2 August 2021 > Colin Hartley

It is a very sad way to start our new term without our headmaster, Mr Lester Pike. His untimely passing has left a void that is felt by the boys, parents and teachers of our school and the greater community.
